SKIN TROUBLE FOR 25 YEARS

On Hands and Fingers. Could Not Work. Cuticura Healed.

"After vaccination I was affected with skin trouble on my left arm and later it set in on both hands and my fingers. I suffered so much I was unable to do any kind of work, and it used to keep me awake at night. I suffered an awful itching and burning, and my fingers were swollen."

"I had the trouble over twenty-five years when I read of Cuticura Soap and Ointment. I tried it with success so I bought more, and now my hands are healed." (Signed) Miss A. Cadieux, Chambly, Canada, Que., Mar. 25, '17. Use these super-creamy emollients for every-day toilet purposes and prevent these distressing troubles.

For Free Sample Each by Mail address post-card, "Cuticura, Dept. A, Boston, U.S.A." Sold everywhere.

Taking No Chances

"In Heaven," promised the colored evangelist, "this will be great banquets and sumptuous feasts." "Yeh—uh huh—dat's fine," commented a dusky negress in the audience, "but tell me, young fellow, who's guine wash dem dishes, huh?"

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. Edmond Gagne, Tikape, Que., writes:—"I am well satisfied with Baby's Own Tablets. They are absolutely necessary in homes where there are little children. They cured my baby of constipation and I would not be without them." Thousands of mothers always keep a box of Baby's Own Tablets on hand as a safeguard against constipation, colic, colds, simple fevers or any other of the minor-ills of little ones. The Tablets are sold by medicine dealers or by mail at ten cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Minard's Liniment Cures Diphtheria.

Protecting Cattle Against Lightning
A number of losses in cattle by lightning have been caused by the electric current passing along fence wires against which cattle sometimes huddle during a storm. As a protection against this a writer in an American farm journal recommends the grounding of fence wires.

To secure the best results the ground wires, this writer says, ought to be placed about every 100 feet apart and stapled closely to the posts in order to make a contact with every one of the line fence wires. The ground wires should also extend slightly above the fence posts on the order of lightning rods, and should penetrate the soil far enough to reach moist earth.

Civilian Army Behind Lines

Plan to Carry Out Engineering Work and Release U. S. Soldiers

Far-reaching plans for the organization in France of a civilian labor force to carry out engineering work behind the lines thus releasing American soldiers for duty at the front, were announced today. Already more than 16,000 French, Italian and other laborers free from military obligations have been engaged and put to work on some of the approximately one thousand engineering construction and reconstruction jobs on which Americans were being employed.

The move is the initial step in a plan long contemplated and discussed to free tonnage for other purposes by creating a civilian army behind the lines which may eventually total a quarter of a million men, entirely, if possible, recruited from abroad. The work will be necessary to import American civilian labor. The men already procured comprise a dozen nationalities, including Chinese, and Moroccans, who are being shipped to France as rapidly as the Americans need them.

The Western Members Manifest Wholesome Unconcern and Disregard of Party Shibboleths

It is significant that the radical Westerners have proved the ruling force of the new war parliament. They are very closely in touch with spirit and sentiment of the people. They have the right conception of the supreme purposes of the present parliament. They manifest wholesome unconcern and disregard of party shibboleths and political expedients. They sweep aside or trample over shrewd attempts to play politics. With them the war comes first. Its efficiency and effective prosecution to the full extent of the country's resources and energies is their direct concern. And immediately back of this dominating duty they place the national interests and progressive policies calculated to improve the position and power of the people.—From the Toronto Globe.

The Appetite of Youth Quickly Restored

Appetite is useless unless digestion is good. Dr. H. Hamilton's Pills make tremendous appetite and keep digestion up to the mark as well. The liver, bowels and kidneys are stimulated, the stomach strengthened, and robust health quickly follows. Dr. Hamilton's Pills instill vigor and snap into the system. You'll forget you have a stomach, forget your days of sickness if Dr. Hamilton's Pills are used. Insist on having Dr. Hamilton's Pills, 25c per box, no other medicine so good.

Million War Women Now in Britain

Remarkable Development in Work Done by Them in Last Fourteen Months

Speaking at the London exhibition of women's work in munition production, Frederick George Kellaway, secretary to the minister of munitions, said that in every one of the defensive measures taken when a raid on London is carried out the women have taken their part, except in the actual flying of aircraft.

The development which had taken place in women's work during the last 14 months, continued the secretary, was quite as remarkable as its development at an earlier period of the war. In July, 1914, he stated, there were 220,000 women engaged in munition industries, while in January, 1917, that number had been increased to 690,000, and today their number was 1,000,000. A steady stream of trained women was being sent into the munition factories from training schools at the rate of 500 a week. Since the ministry of munitions had started the schools, said the speaker, between 40,000 and 50,000 trained women had been placed in munition industries.

The farmer alleged that a freight train of his mules. "Now, Mr. Jones," said the attorney for the corporation to the farmer, "will you kindly tell the court whether or not your mule was on the track when hit by the train?"
"Well," replied the farmer. "This was a bright mule, and I reckon if that train had not cut after him in the woods which fringe the track there where he was killed, he would get behind a tree!"—Farm and Home.

LIFTS OFF ANY CORN WITHOUT PAIN

Once you get a few drops of Putnam's Extractor on a sore corn, you realize what it has been doing. It waits so long before using the one painless and sure corn remedy. Putnam's shrivels up a corn mighty quick; peels it right off the foot, acts entirely without pain, and never fails even on the oldest and toughest of corns. For a real cure get Putnam's; costs but a quarter at the druggist.

No Thoroughfare

Barring the Path of the Hun on the West Front

All things are possible with faith, as the French roved at Verdun and into regular army at Ypres; and here there is a two-fold faith. There is the nation's faith in its chosen and beloved children, and those children's faith in that which is noble and true. Through them "heroism has been born such as history has never known." Their task is hard and heavy, but they have the strength that there burns in them "something high and resplendent which one associates with the stories of old saints or heroes," and this will bring them through. The French at Verdun swore, "They shall not pass!" Our men use homely language. "No thoroughfare for their tanks; and they will make it good.—London Daily Mail.

He Knew

"The government may take over what is considered excess profit."
"What is excess profit?"
"Getting more than you earn."
"There goes my salary," wailed Congressman Fludd.—Omaha News.

OUR BOYS IN EUROPE AND HOME PROTECTION

The men on the firing line represent the pick of the country's youth. Many are rejected because of physical deficiency. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N. Y., says that you should drink plenty of water daily between meals. Then procure at a drug store, Anuric (double strength). This "An-u-ric" drives the uric acid out of your cars and backache and rheumatism.

If we wish to keep our kidneys in the best condition, eat of milk and vegetable food, with only little meat a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month.

Send Dr. Pierce 10c for trial pack. Anuric—many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you. Preston, Ont.—"I am pleased to express my experience with Anuric. I have been afflicted with rheumatism in right limb and hand for several years, and lately in left shoulder. The only way I could live was on my back. I had great difficulty to sit down and more to get up. Lately I had a very severe pain in my back. I have taken Dr. Pierce's Golden Medical Discovery several times with the most satisfactory results, so I concluded to give him Anuric Tablets a trial. The pain in limb and shoulder has stopped entirely and in right hand is a very slight and getting less all the time. I can now sit or lie in any position I wish without discomfort or pain. I recommended the Anuric Tablets to two parties and they both claim decided improvement. I certainly will recommend them to any one troubled with the kidneys; there is nothing so good; I tried them all."—GEOSE Boos, cor. Duke and Waterloo.

Submarine Cable Relaying Islands Must Be Found for Relay Stations

The longest continuous stretch of submarine cable now working, that is, without a relay, is 3,458 nautical miles—that from Vancouver to Fanning Island in the Pacific, and the average distance without relay is much less. This is evident, therefore, that on the long transoceanic cables such as those across the Pacific, islands must be found for relay stations. This explains the rivalry of certain European nations for the possession of small, solitary islets, scarcely more than mere rocks, and useless except for just such a purpose as this. This was the reason for Germany's acquisition of the Caroline and Marianne islands and later of one of the Samoa group, at the time of our war with Spain. Similarly, England is to be found in possession of conveniently placed islands all over the world.—The Americas.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Germany's Gloomy Future

Hun Professor Sees Little Hope After the War

At a meeting of the Farmers' League of Munich, the well-known Bavarian agrarian leader, Dr. Heim, sombrely pictured the economic future of Germany, stating that the stock of cattle had been depleted and the soil exhausted. It was self-deception to believe that pre-war conditions could ever return. Rebuilding would take decades and Germany would be unable to export the goods needed. Some salvation lay between free trade and compulsory state control, Dr. Heim opined.

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parment's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

Not Even Honor Among Thieves

The next thing in national damage to being Germany's enemy is being Germany's ally. The Austrians, impoverished and hungry, threatened with the disintegration of their empire, shamed in the eyes and hated in the hearts of the world, know what that means. The Bulgarians are just finding it out in their turn.—Boston Transcript.

There may be other corn cures, but Holloway's Corn Cure stands at the head of the list so far as results are concerned.

Hay in High Explosives

The statement has been made by a representative of the government that 5 million tons of coarse and grassy hay will be required this year in the production of a filler in the manufacture of high explosives. This hay is thoroughly macerated and 20 per cent of it of the bulk of the explosive is said to be made of the resulting fibre, replacing the cotton formerly used. There are many places where, of course, mixed hay may be grown, but where hay suitable for feed is difficult to produce.—Scientific American.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it is the best cream made.

ARCHIE E. LAUNDREY, Edmonton.

Hence the Spider

The lawyer had been away in the country calling upon a client, but on his return there were signs of loafing and laziness on the part of the junior clerk.

"Thomas, that typewriter has not been touched today!" snapped the man of law.
"Oh, sir," ejaculated the junior, "why, I was using it only an hour ago."

"Then," thundered the employer, "how comes it that there's a spider web on the machine and that he's worn a web on his forehead?"
"Sir," remarked the lad, "I'll tell the truth. There was a fly in the works of the machine. Rather than waste my time in catching the insect, sir, I—er—introduced the spider, sir!"

Real Poverty

Poverty is a variable term, and much subject to comparison. One will allow it only to those who have been long in the land, and always half-starved, these think, and to carry a basket from door to door—that is to be poor. But it is idle to think of cold and hunger to the point of starvation as the only cold and hunger there are. Not alone are there degrees of cold and hunger of the body—discomfortable and ill-nourished living—but there are, as well, things which seem to me even more difficult to endure—unsatisfied hunger of the mind and heart and a most cruel and persistent chill of the spirit.—Laura Spencer Porter, in the Atlantic.

There is Beauty in Every Jar
MILK WEED
Ingram's Milkweed Cream
FREDERICK F. INGRAM CO.

Ingram's Milkweed Cream

When youth takes flight on the wings of years beauty of complexion goes too, unless you give your skin proper and daily care. Use of Ingram's Milkweed Cream will enable you to appear youthful when you are no longer young. Its distinctive remedial effect upon the tissues of the skin keeps the complexion colorful, soft and free from blemish. It does actually "healthily" and beautifully your complexion. Since 1885 there's been nothing else "just as good." Take no other.

Warm days, household work, and slight heat, all cause perspiration and shiny, oily skin. You can avoid this by using Ingram's Velesia Bouverina Face Powder. It binds the complexion. A light touch hides wrinkles, makes your complexion smooth, soft and flawless. A full line of Ingram's toilet products, including *Exfoliate for the face*, is at your druggist's.

Note and Comment

Cyclonic winds and blinding duststorms have been the outstanding feature of this spring. Day after day the same thing occurs and when we got a little rain on Monday morning and a cooler atmosphere we hoped we were in for a spell of more reasonable weather, but Tuesday provided its daily duststorm as blinding as if we had had no rain at all. It has been remarkable that these storms are all low surface currents for whilst the hurricane has been sweeping over the prairie at 30 or 40 miles an hour the overhanging clouds are almost stationary. Farmers are feeling pretty blue in this district, for at the request of the government they have got in the maximum of seedling and now they fear no amount of rain will produce any crop worth cutting. Some think if they get a little green feed they'll be lucky. In a few instances wheat is heading out at 6 to 8 inches and allowing for abnormal aftergrowth it does not seem possible to cut it with a binder without losing half the ears. Gardens are also in poor shape and many of the seeds put in in April have not yet germinated. The problem of feed for stock thru the winter is also perplexing. It is poor satisfaction to be told that in other parts of Canada they have plenty of rain and prospects of a good harvest. Two years of drought in succession with everything at war prices is taking the heart out of the farmer here.

Thousands of people throughout Canada have registered their willingness to help with farm work this summer and harvest season but where is the organization that will bring the willing worker to the job. Local business men should organize these volunteers and get in touch with farmers and place them where they will do most good. Every Canadian city, town and village should have a farm labor office where volunteers, who have registered their willingness to work on farms, may get in touch with farmers needing help.

To-day, as was the case a century ago before wheat was imported into Britain (says a Bulletin from the British Ministry of Food), there are no cereals available for cattle. There are not even any offals, for barley and corn are so milled for bread that there is practically nothing left over for cattle food. Food for humans takes precedence over food for the beasts of the fields.

You Look As YOU FEEL

You know well enough when your liver is loafing.

CONSTIPATION is the first warning; then you begin to "feel mean all over."

Your skin soon gets the bad news, it grows dull, yellow, muddy and unsightly.

Violent purgatives are not what you need—just the gentle help of this old-time standard remedy.

Small Pill, Small Dose, Small Price.

Genuine Carter's Iron Pills

ABSENCE of Iron in the Blood is the reason for many colorless faces but

CARTER'S IRON PILLS will greatly help most pale-faced people.

TRUTH IS COSTLY IN GERMANY

HAS BEEN EXPERIENCE OF MANY

"FREEDOM" AS IT IS IN THE LAND OF THE HUN

A German Refugee in Switzerland Makes Some Astonishing Revelations in a Newspaper Article, Describing How Cruel of the Hun War Lords are Treated

A Berlin journalist of long experience, Dr. Hermann Rosenheim—now a democratic refugee in Switzerland—has some astounding revelations to make in the Bern Freie Zeitung. Dr. Rosenheim, who was for many years the political editor of the influential Berlin Morgenpost, writes:

"In Germany it is permissible to describe imperialism in general as the cause of the war, but one dare not discuss the question of the German powers' share in the blame for the war. Liebknecht, the one Social Democrat who opposed the war from the start, is a convict in prison. 'Red Rosa' Luxemburg, called the 'Tigress of German Socialism,' is under preventive arrest, and so are thousands like her.

"Frolo, Nicolai is in jail. Lieutenant Commander Pansche, of the imperial German navy—the son-in-law of the vice-president of the Reichstag, and nephew-in-law of Maximilian Harden—is serving a sentence of penal servitude. Poor old Baron von Eckardstein, former chancellor of the German embassy in London, wanders from preventive arrest to jail and from jail back to preventive arrest. The harmless Lilly Jannasch, secretary of the New Fatherland League, has been locked up for months.

Getting the Most Out of your Team

Make their work easier. They are faithful friends and deserve the best treatment.

MICA AXLE GREASE

"Use half as much as any other"

Lightens the load. The mica forms a smooth, hard surface on the spindles and the grease keeps it there. Mica Grease gives the effect of roller bearings and reduces unnecessary strain on your team.

EUREKA HARNESS OIL

"Lengthens leather life"

Is the best harness life insurance on the market. It overcomes the worst enemies of leather—water and dirt. Leaves your harness soft, pliable and waterproof. A pure mineral oil free from acids and cannot injure the leather.

Sold in standard sized packages by live dealers everywhere.

Canadians Dashed At Them

Great Valor Was the Prime Factor in the Capture of the Position

When in command of a squadron detailed for special service of a very important nature, Lieut. G. M. Flowerdew, of the Canadian Cavalry, on reaching the first objective saw two lines of the enemy, each about 60 strong, with machine guns in the centre and flanks, one line being about 200 yards behind the other. He ordered a troop under Lieutenant Harvey, V.C., to dismount and carry out a special movement while he led the remaining three troops to the charge.

The squadron (less one troop) passed over both lines, killing many of the enemy with the sword and wheeling about, galloped at them again. Although the squadron had then lost about 70 per cent. of its number, killed and wounded, from rifle and machine gun fire directed on it from the front and both flanks, the enemy broke and retired. The survivors of the squadron then established themselves in a position where they were joined, after much hand-to-hand fighting, by Lieutenant Harvey's party.

Lieutenant Flowerdew was dangerously wounded through both thighs during the operation, but continued to cheer his men. His great valor was the prime factor in the capture of the position.

Germans Believe England is Starving

Statement Which is Designed to Make German Mouths Water

Any news about food is good news in Germany these days, so the Berlin general staff press bureau has introduced a food note into its communications on the great battle. It solemnly informs the German public that, according to English prisoners, England is starving. This statement occurs in the course of a narrative, which is designed to make German mouths water, of the food booty taken by the Germans in their advance. "Everywhere we have captured considerable quantities of tinned food, white bread, marmalade, wine, and tobacco. While people at home are starving on empty stomachs, we must tell you, they themselves are well supplied with eatables of all kinds, which German soldiers are now devouring with the utmost relish as reward for their exertions. We have also taken large amounts of uniforms, linen, and boots, as well as leather goods of all sorts, and very many rubber boots, blankets, and tent materials. Of special importance, above all, for our purposes, of the enemy, is the good network of light railways which the English had laid down. The net result of the first three days of the battle is that the English have already lost a mass of war material which even American relief will not so easily be able to make up."

Charles M. Schwab, as the director of shipbuilding in the United States, will have under him over 450,000 men.

INVESTIGATING THE PROBLEM OF SECURING LANDS FOR SETTLERS

COMMITTEE OF AGRICULTURE AND COLONIZATION

Some Settled Policy is Needed to Put a Check On the Evil of Absentee Ownership, and To Make Available for Cultivation Large Areas of Idle Farm Lands

During the session of parliament now near its close a committee on "Agriculture and Colonization" has been investigating some problems of a quasi-economic but extremely practical sort, such as the procuring and distributing of labor, both male and female; the encouragement of the production of live stock, and the facilitation of the distribution of the produce, and the increase of the amount of the land in the West available for settlement on easy terms by returned soldiers. While the recommendations of the committee are quite reasonable and helpful, so far as they go, it is obvious that an effectively practical remedy is well within the reach of the various provincial governments and the Dominion government acting in co-operation to put a check on the evil of absentee ownership. This remark applies to the "large areas of privately owned vacant land in close proximity to railway transportation." It is absolutely preposterous that there should ever have been good agricultural land owned by private parties who are leaving it from year to year uncultivated to become a nuisance to the settlers in the various localities.

The proper and effectual remedy for this evil is to increase the burden of taxation on unused land, so as to make ownership of it unprofitable. Make the taxes on land at "prairie value" sufficiently heavy to insure that the government, and not the so-called owner, will get the benefit of the "unearned increment" in the value of the land, and the disposition to hold it for a rise in price through the toil and hardships of others will disappear. There are two ways of effecting this: the better way is to raise the desired revenue from a tax on land, leaving improvements untaxed; the less desirable way is to impose on all unused land a specific additional tax which becomes a lien on the land itself, and which ceases when the land is devoted to its proper use.

Under the British North America that the government, and not the so-

Act each provincial legislature has the exclusive right to impose "direct taxation within the province in order to the raising of a revenue for provincial purposes." It has also the exclusive right to make laws relating to "municipal institutions in the province," and, lastly, it has the exclusive right to make laws regulating "property and civil rights in the province." Of course, while the right of a provincial legislature to adopt positive enactments in these various connections is undoubted, it is open to the Dominion government to disallow them on grounds of expediency. What is needed is that some settled policy in the matter be agreed to by all the governments before-hand, and then there may be such remedies adopted as will be at once equitable, expedient, and effective.—Toronto Globe.

Kaiser's Napoleonic Dreams

Kaiser Wilhelm to Follow French Conqueror in Appointing Relatives as Rulers

Napoleon Bonaparte placed his brothers and famous marshals on the thrones of several conquered states in Europe. A writer in the London Spectator, imputes to Kaiser Wilhelm a desire to follow the French conqueror, not only in war and diplomacy, but also in appointing relatives or puppets as rulers of 14 out-trampled countries. According to the article, the Kaiser contemplates making his second son, Eitel Fritz, grand duke of Courland; a Saxon or other prince, king of Lithuania; another of his sons king of Poland; his first son, Prince Oscar, king of Finland; a more docile Hohenzollern the king of Roumania; while Albania is reserved for Prince William of Wied.—Charlton Bates Strayer in Leslie's.

American army cooks in France recently baked a ton of foot powder into bread, mistaking it for flour.

MAKE THIS ENGINE YOUR FARM POWER PLANT

Mechanically Perfect and Low Priced

This engine will save you the high cost of farm labor—it will save you money in upkeep and operating cost. It will save you time by doing your work quickly. It will do more and better work than any other gasoline engine of its size made. You will find it a paying investment from the day you start to use it. Built to stand the strain of hard work, no parts can break, leak, or cause trouble and delay.

Stover's Good Engine

Hopper cooled—Equipped with speed changing device which provides for a wide variation of speed and speed at which while the engine is in operation. The gasoline is contained in the base and each engine is shipped out ready for operation with all pipe connections made complete—oscillating magneto at small extra cost. Made in sizes of 1 h.p. up to 14 h.p. State size you require.

BUILT FOR LONG, EFFICIENT SERVICE, BACKED BY OUR POSITIVE GUARANTEE

Write for Illustrated Catalog.

Strong Double Geared PUMP JACKS

This Stover No. A-1 Pump Jack is double geared and of the best design, with pipe pumps, and can, of course, be used with the style of pump you now have. A sturdy little jack that will give long, satisfactory service, its mechanical construction is perfect, and it is easy to get into and out of trouble.

Stroke, 5 7/8 and 10 inches. Weight 20 lbs.

Write for Illustrated folder and price.

John Byrne spent the week end in the country enjoying homestead life.

Anglican Church services will be held on Sunday at Monitor at 11 a.m., at Consort at 3 and at Little Gap at 7.30 p.m.

"The Robe of Christ's Righteousness" was the subject of the address given by Mrs. Haines in the Big Hall on Sunday night. Mention was made of this robe being provided by God and of the necessity for us to be willing to accept and wear it.

BORN.—On June 22nd to Mr. and Mrs. Tom Smith, a boy.—On the same day to Mrs. Robert Hyslop, a girl.

Mr. McDonald's smart cross-examining ability in the alleged cattle stealing case at Monitor last Friday was proved when he made a Russian witness swear that the red muley heifer in question was a steer.

Dr. MacMaster, the newly-established vet. in Monitor, has proved himself a very efficient man, he having treated about 500 horses with the influenza epidemic this spring without losing one. He graduated in 1915 at Ontario Vet. Coll. and holds the Alberta Diploma. He moved to Monitor with his wife and family from Glengarry Co. and has soon made himself a popular man.

A very successful school concert was given last night in the Big Hall. Mr. McRae had evidently taken great pains to drill the boys in all kinds of gymnastic stunts, the boxing in barrels being very amusing. The Monitor Brass Band was a great help in making the concert a success and about \$25.00 was taken for the Red Cross. The special feature of the evening was a capital staging of a pretty patriotic play, entitled "The making of Canada's Flag." The programme was as follows:

Opening Chorus "O Canada" Seniors
Song of Greeting Juniors
Folk Dance Six Boys and Girls
Chorus "Call of Herring" Seniors
Dramatization of Nursery Rhymes
Fancy Flag Drill Eight Girls
Athletic Stunts Boys
Chorus "Old Folks at Home" Seniors
Butterfly Drill and Song Junior Girls
Play "The making of Canada's Flag"
"God Save the King."

BUSY BIDEFORD

AUTO SMASH.—A distressing auto car accident occurred on Saturday night about 11.30 at the ditch that is situated on the road just east of the town opposite Robinson's coal bins. Mr. Allan Woodward and party had been in to register and were on the way home; by some chance they took an old trail that precipitated the car into a deep ditch. Miss Hagen was bruised and much shaken, Mrs. Woodward was fortunate in escaping injury, but Albert who was in the back seat was hurled through the wind shield and was badly cut by the broken glass. Another passenger had his finger hurt, but Allan himself luckily escaped injury, being shot clear on to his feet. The injured man was attended to at Mr. P. Robinson's house whilst Mr. Watling hurried off to Kirriemuir and fetched Dr. Emmott. The glass had made some very bad cuts but the party were able to leave for home on Sunday about noon. We would call the attention of all autoists to this danger trap; this ditch should either be culverted or the trail graded more in the centre of the road allowance.

HUMORS OF REGISTRATION.—Curious indeed were the confessions and admissions on Registration Day, especially amongst the strangers in our midst who enjoy names that are about a yard long. Any physical disabilities? enquired the interpreter. The registrant nodded mysteriously and bent forward to whisper "me a Roman Catholic." Another, a promising young farmer, on being asked "Can you handle horses?" promptly replied "not broncos." An old Hebrew lady who could not write her name refused to make a cross as it was the sign of Christianity.

MATRIMONY.—The little bird that whispers the Bideford news in our ear tells us of a new agency in our busy town—an agency to inveigle our innocent youth into the holy (?) bonds of matrimony. Those who desire to become members must be young, good looking, and of a pleasant amiable temper—this applies to the gentler sex (judging from the recent registration every woman is on the sunny side of life so there is hope for all. The male applicants must be fairly handsome, absolutely well fixed, and promise to love, honor and obey their wives. The fee is \$1.00, which includes correspondence lessons in "How to woo," "The gentle art of popping the question," "The dangers of dancing," etc. On the consummation of love's golden dream each happy couple will be presented with a wedding gift and a copy of a new book entitled "The miseries of the married." For full information apply to Hymen, Bideford.

POSTAL FACILITIES.—The following letter from an out-of-town Homesteader expresses the wishes, we believe, of most of the people of Bideford and district:—

Sir,—Will you call attention to your interesting column to the inadequate postal facilities of Bideford. The post office is closed on Sundays and in the evenings of the week when it ought to remain open to enable travellers to post letters and to enable others to get their mail from their boxes when most convenient to them. It is suggested that the outer door should be left open and if Mr. Robinson should object and the law is with him, may I suggest that at least there should be an outside box where one can drop his letters in during the night. Several times I have had to knock someone up and ask them to post a letter for me in the morning.

Yours truly, Homesteader.

Serious Charge of Alleged Cattle Stealing and Illegal Branding

Great interest was shown by a crowded court on Friday night at Monitor when Joe Drennan was charged before P. Moth, J.P., with stealing a muley heifer belonging to A. H. Hedger.

The case was prosecuted by the Alberta Provincial Police and Drennan was defended by Mr. McDonald of Edmonton.

It appeared from the evidence that Mr. Hedger had lost some eight head of cattle in December, and that in May he identified and recovered two or three from the defendant's herd. Afterwards he identified and claimed a muley heifer in the pasture of Perdue Brothers, at Kirriemuir. The heifer had then been branded with defendant's brand. Mr. Perdue stated that he had obtained the heifer from Drennan in trade for a steer.

Evidence of identification was given by Mr. Johnson, a neighbour of plaintiff's; by Chris Hurst, who had sold the animal to Mr. Hedger; and by Martin Schrater who had raised the heifer.

No evidence was offered in rebuttal, Drennan's legal representative merely attempting to discredit the evidence of the witnesses for the prosecution.

The magistrate said that he considered cattle stealing one of the most serious charges in this country, and as no defense had been put in he thought the case should go before a judge, and committed defendant for trial.

Mr. McDonald made a plea for the magistrate to remand prisoner for trial so that he might get bail without a journey to Edmonton, but his Worship refused to alter his decision.

It was understood that there were other charges of a similar nature in abeyance.

RED CROSS

June 21st. Members present 12. Work handed in: Mrs. Deadmarsh pair of socks, Mrs. Taylor 33 handkerchiefs, Mrs. Greyburn 2 pairs socks, Miss Grayburn 6 pneumonia jackets, Mrs. Purdy 17 towels. DO IT NOW

PUBLIC NOTICE **Military Service Act, 1917.**

Men 19 and 20 Years of Age.
Harvest Leave.

Leave of Absence on Ground of Extreme Hardship.
Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to go report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

ISSUED BY DEPARTMENT OF MILITIA AND DEFENCE,
 DEPARTMENT OF JUSTICE.
